2022 Parent/Carer Payment Arrangement - Year 9

Dear Parent/Carer,

Footscray High School is looking forward to a great year of teaching and learning in 2022 and would like to advise you of Footscray High School's parent payment arrangements.

Schools provide students with free instruction to fulfil the standard Victorian curriculum and we want to assure you that all contributions are voluntary. Nevertheless, the ongoing support from our families ensures that our school can offer the best possible education and support for our students. We want to thank you for all your support. This has made a significant difference to our school and the programs we can offer.

Footscray High School has great expectations for learning that maximises engagement, progress and achievement for each student. Each year the school will work hard to ensure financial stability whilst keeping fees to a minimum, making education affordable for all.

Please find the arrangements for Year 9 attached. Families will be invoiced for curriculum contributions and other contributions. Participation in extra curricular items and activities will be arranged separately.

As a new multi campus school, Footscray High School has received significant government funding to upgrade and build our three campuses at Kinnear, Barkly and Pilgrim. Our School Council is proud of the excellent quality of our facilities and resources available for our students, staff and community to enjoy and few schools match the numerous programs we offer to cater for students' needs and interests. However, many of these programs are not funded through the Department or Government grants.

The environment and resources that we enjoy today represent the co-contributions made by our parent/carers community and Government funding. Parent/Carers voluntary contributions make a significant difference to the quality of our programs and in ensuring a safe and inclusive environment. This financial support ensures that we can continue to provide an excellent range of facilities and resources for your children.

Within our school this support will allow us to continue to provide a differentiated curriculum that responds to the learning of all students, and provide essential learning resources to students that include:

- Updated teaching equipment and resources, including library books to reflect current interests and passions of our students
- Maintenance and development of the school grounds including outdoors teaching and learning spaces
- High end WIFI and internet infrastructure to ensure multi campus consistency
- High end STEAM infrastructure and equipment across three campuses
- A multi campus food service – EAT WELL
- State of the art audio/visual equipment across three campuses
- Access to Education Perfect online subscription
- Bike Education Program including bike safety infrastructure
